

@HOME Activities

RAIN CLOUD IN A JAR

Teach your child how rain clouds produce rain through this fun activity. Using shaving cream, food coloring, and a glass of water, watch how rain travels through clouds with your child.

Materials Needed:

Shaving Cream
Water
Glass Jar
Food Coloring

Directions:

1. Fill a glass or clear jar halfway with water.
2. Spray shaving cream into the jar so that the shaving cream floats on top of the water.
3. Gentle squeeze drops of food coloring on top of the shaving cream "cloud" and watch as it trickles through into the water.
